PRINTING

O.H. Multimedia specializes in colour printing services. We can print your business cards, letterhead, envelopes, brochures, reports, posters, and banners.

The business card continues to be one of the most popular and a internationally accepted form of communication and self-promotion.

If you are starting a new business, we have discounted some combination packages (business cards, letterhead, and brochures) to assist with your new venture.

Ask about our combo's. We have extremely competitive pricing and will provide free quotes in a timely basis.

O.H. Multimedia also offers specials throughout the year on varying products from business cards to postcards to brochures. Be sure to check our website or e-mail about the latest specials.

AUDIO

Do you have an old recording of a family member you would like to pass on to your children? Let us transfer it to CD and make copies for your entire family. Can also supply as files for copying to your favourite playback device (eg. cell phone). We specialize in sound restoration of records, cassette tapes, and even old reel-to-reel tapes to CD. All of those old tapes deteriorate with age, so don't let them get to the point that they are no longer playable. Let us restore those keepsakes and transfer them to a CD before it's too late. We will let you hear a sample of your restored tape before proceeding with your order. We can even put a photograph and title on the CD itself to add to the nostalgia!...

VIDEO

Have videotapes you want converted to DVD? Look no further! We convert VHS and other types of video formats to DVD. We will convert the accumulated number of hours from your tape(s), and transfer the contents onto DVD with a menu. Multiple DVD discs will be used if the accumulated number of hours is greater than two. All video and audio on your tapes are captured as it was originally recorded with your camera.

Transfer your memories from video tapes to DVD today before it's too late.
